WHY US

The promises you can hold us to.

Free written quotes

We come out, look at the job and put the price in writing. No charge, no obligation.

You pay for finished work

Never large sums up front. Any deposit covers materials, and never more than they cost.

No job too small

A day's tiling and a full extension get quoted the same way and turned up for on the day we said.

Nothing you haven't agreed

If we find something underneath, you see it and get the price before we touch it.
